Title of the Project:	Fashion shop management system for Jayananda Fashion Dikwella	
Batch:	Matara	Group No: Matara-mtr_2022_wd_1
Development Technology:	Django , Mysql , Python , Html, Css, Java Script	
Client:	Jayananda Fashion Dikwella	

Description of the Project:

Jayananda fashion (dikwella) is a clothing and fashion accessory selling company. They require a System to manage their day today business tasks

The system consists of sales management, employee management, stock and item management, order management, user and finance management, supplier management.

They are still maintaining bill books to store bill information. It is very hard to find some information quickly due to that reason they require a easy way to handle that task so they chose this system

Due to the high functionality of this system, it is very useful to the business with their day today work

Details of the Group Members: *(Provide the details of the group leader in the first row)*

	Surname with initials	Registration Number	Contact Phone Number	Email
1.	S.V. Dewasurendra	IT21039140	0717434671	lt21039140@my.sliit.lk
2.	H.G. Sachin Lakshan	IT21105616	0761590891	it21105616@my.sliit.lk
3.	K.L.P. Chamikara	IT21065330	0776142595	it21065330@my.sliit.lk
4.	Gamage I. S	IT21002892	0778500076	it21002892@my.sliit.lk
